

OSHA SHARP  
Safety Award Recipient  
SHARP - Safety and Health Achievement Recognition Program

G&T Receives  
OSHA SHARP  
Award

G&T Conveyor Company, the only American owned and largest privately held turnkey baggage handling systems manufacturer in the United States, announces that it has earned The Safety and Health Achievement Recognition Program Award (SHARP). G&T was awarded SHARP Certification for 2009–2010, and will be re-applying for this voluntary rigorous safety achievement program in 2012 for our advances in safety throughout 2011.

G&T Safety Team receiving OSHA SHARP Award from Pat Stark, USF SafetyFlorida Consultant

The SHARP award is presented to employers who operate an exemplary safety and health management system facility. Acceptance into SHARP by the Occupational Safety and Health Administration (OSHA) qualifies G&T as a model amongst its peers for work site safety and health. Out of 7 million US work sites, less than 2,000 have earned OSHA SHARP Certification.

To qualify for SHARP, companies must undergo a comprehensive audit, correct all identified hazards, demonstrate that effective safety and health programs are in place, and maintain injury rates below the national average for the last three years.

G&T received SHARP certification in just 7 months, the average length of time taking 18 months. This milestone achievement shows G&T's dedication to training, education and elimination of hazards in the workplace.

**G&T joins an elite group of companies who understand that focusing on worker safety is paramount to a successful organization.**
